RS 5
Avant

A beast with brains.

Practicality has never moved like this. The all-new Audi RS 5 Avant brings together a 510 hp twin-turbo V6 and a 130 kW electric motor for a combined 639 hp and 825 Nm. Electric torque arrives instantly, the V6 keeps building, and 0 to 100 km/h is over in just 3.6 seconds. When the pace slows, the plug-in hybrid system can deliver up to 83 km of all-electric driving.

But the real transformation happens beneath the surface. New RS-tuned steering uses a quicker 13:1 ratio for more direct, precise response, while the RS sport suspension with twin-valve dampers controls compression and rebound independently.
That means greater comfort when you want it and sharper body control when the road gets interesting. Add quattro with Dynamic Torque Control and electromechanical rear-axle torque vectoring, and the RS 5 Avant feels more agile, more responsive and far more eager than its practicality suggests.

Adrenaline visualised.

The cockpit in the RS 5 Avant is an ultra-modern, driver-oriented command post. At its center is the Audi MMI Panorama display, presenting the most important information through RS-specific displays inspired by motorsport, while the augmented reality head-up display keeps your attention focused ahead. The 10.9-inch passenger display turns the person beside you into your co-driver. Bang & Olufsen Premium Sound fills the cabin with rich, immersive audio, while four RS interior packages allow you to shape the atmosphere with distinctive finishes, coloured seat belts and RS floor mats. It is a cabin designed to feel personal, purposeful and ready to change character the moment you do.

RS like never before.

Performance is visible in every line of the all-new Audi RS 5 Avant.
Configurable daytime running lights and darkened Matrix LED headlights give the front an instantly recognisable RS signature, while the honeycomb grille, wider stance and RS-specific exterior details add strength without losing the clean Avant silhouette.

At the rear, configurable OLED taillights bring another layer of personality, joined by a chequered-flag brake-light projection that appears on the rear window when braking. Carbon or matt carbon camouflage accents sharpen key details, and available 21-inch wheels add even more presence.

The optional Audi Sport package pushes the look further still, giving the Avant a more focused expression without compromising its distinctive long-roof proportions.

In 3, 2, 1...

Torque	Power	0-100 km/h
825 Nm	639 hp	3.6 secs

Technical specifications

Engineered in every detail, the all-new Audi RS 5 Avant brings together performance, technology and precision in one uncompromising package.

Engine

Engine type	2.9 twin-turbo V6 engine (510 hp) paired with a 130 kW electric motor, plug-in hybrid system

Power

Combined torque	825 Nm
Combined maximum power	470 kW (639 hp)
Petrol engine maximum power	375 kW (510 hp)
Electric engine maximum power	130 kW (177 hp)
Displacement	2,894 cc
Battery capacity (Gross / Net)	25.9 kWh / 22.0 kWh

Power transmission

Drive type	quattro with centre limited slip differential
Clutch	Hydraulic torque converter with lock-up clutch
Transmission type	8-speed tiptronic

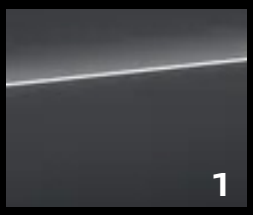

Performance and range

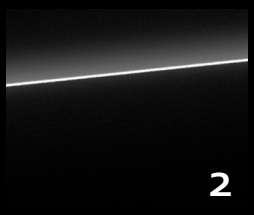

Top speed (Limited)	250 km/h
Acceleration 0-100 km/h	3.6 s
WLTP range	up to 83 km*

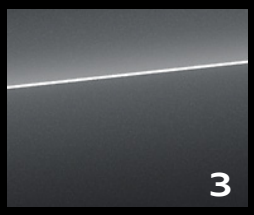

* Under ideal conditions

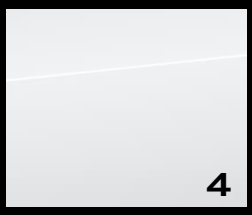

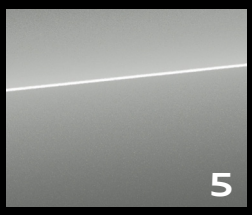

Exterior

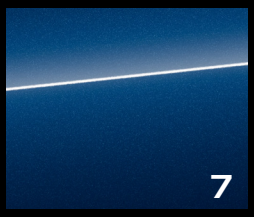

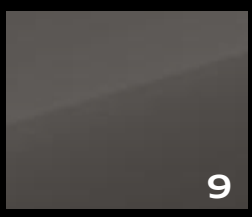

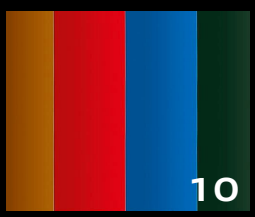

1. Magnet Grey, solid
2. Mythos Black, metallic
3. Daytona Grey, pearl
4. Glacier White, metallic
5. Plateau Grey, metallic
6. Progressive Red, metallic
7. Ascari Blue, metallic
